

Flexible Payment Solutions

The IntelliLink® technology choice of integrated payment options let you select an option that suits your cash management needs. Regardless of the option you choose, you can access your postage funds immediately from your IntelliLink control center, at any day and any hour.

- **Replenish your postage with the touch-of-a button** – Simplify tracking and management for multiple systems by having us create a consolidated account for several DM Series™ mailing systems.
- **Postage by Phone® Plus** – Get truly flexible payment with a line of credit so you can “mail now, pay later.” Buy mailing supplies with the same credit line that you use to buy postage.
- **Reserve Account** – Earn rewards when you pre-pay for postage. Receive up to 2% of your average daily account balance in free postage.

All of our payment solutions offer customized management reporting that is appropriate to your patterns of postage usage and your selected payment method.

Your Digital Gateway to Mail Innovation

IntelliLink® technology takes your DM Series™ mailing system far beyond the realm of conventional postage meters and mailing machines. A powerful digital gateway, IntelliLink® technology keeps you connected to the very latest in Pitney Bowes mailstream management innovation. It gives you single-stop access to a full range of USPS mail services as well as superior tools for mailstream management.

With IntelliLink® technology your DM Series™ mailing system is a portal to continuous improvement in mailstream efficiency, information management, and reduced labor and postage costs. Dynamic downloads mean your system stays at the cutting edge with minimal effort from you.

IntelliLink® technology is powerful without being complicated. Even inexperienced operators find it easy to use. And you can configure a mail system with the flexibility to grow with your company's needs.

IntelliLink® technology – the future of mail. Only from Pitney Bowes.

The IntelliLink® control center is the intuitive interface for your DM Series™ mailing system that brings unprecedented capabilities to your mail center.

Access the Post Office – from Your Mail Center

USPS Special Services: DM Series Mailing System with IntelliLink® technology is the first mailing system technology that gives you electronic access to USPS® Special Services – right from your mail center.

- Save time by eliminating trips to the Post Office.
- Add delivery confirmation, signature confirmation and certified mail with appropriate rate classes to your mailings with the push of a button.
- Take advantages of free or discounted USPS Special Services by processing them automatically.

If your organization frequently needs proof of delivery, IntelliLink® technology's latest service, e-Return Receipt, offers big benefits.

- Eliminate manual completion of green cards.
- No need to file returned cards or worry about storage.
- Reduce certified mail costs including reduced postage, forms, and special printers.
- Electronic Return Receipts can be accessed online at any time, and are retained for seven years.

The Latest Software and Rate Information

IntelliLink® is the key to an adaptable mail system that evolves with your needs, and with technology advancements. Software upgrades can be downloaded at the touch of a button to keep your DM Series™ mailing machine operating at maximum performance. As rates change, IntelliLink® system downloads new USPS and carrier rates directly to your system.

- No more worries about replacing rate chips.
- Update your DM Series mailing system any time of the day.

This powerful technology means you always have the most current rates and advanced mailing system software in the industry.

Rate Chip

Additional Features-on-Demand

IntelliLink® technology empowers you to enhance your DM Series system as your company's needs change. Pitney Bowes is continually developing new options for the DM Series systems. With IntelliLink® technology, any new capability can be working for you in minutes. Options include:

- **Envelope Ads** to promote your business, your favorite charity, or to celebrate a holiday.
- **Postal Inscriptions that meet USPS regulations** for postal discounts, when you are considering a new class of mail.
- **Accounting features** – basic to robust – so you can track postage for chargebacks and manage internal postage budgets effectively.
- **Weighing features** – upgrades scale options including differential weighing.

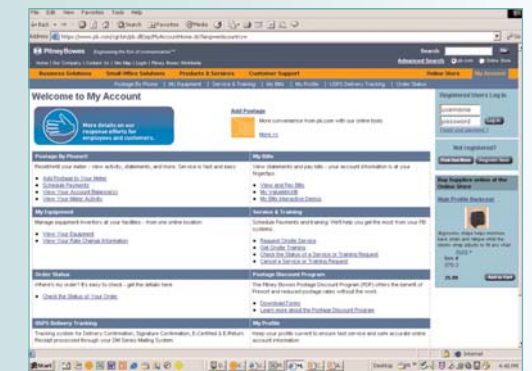

IntelliLink® is integrated into the full range of Pitney Bowes DM Series™ mailing systems.

Consolidated Information Online

The IntelliLink® solution is your key to greater power for My Account at pb.com. Have information about your mailstream and systems at your fingertips, with online access to account information through integration. "My Account" lets you track the USPS Special Services you have processed via IntelliLink™ technology. Delivery details are consolidated and stored online for two years for easy access.

My Account at pb.com allows you to:

- Obtain USPS delivery tracking details
- Manage Postage by Phone® postage balance and Postal Payment Solution Accounts
- Request equipment service
- Arrange for on-site training
- Shop for supplies
- Manage your equipment inventory

IntelliLink® technology and My Account are a powerful combination to keep your mailcenter running at maximum efficiency.

As Pitney Bowes creates the future of mail, IntelliLink® technology keeps you connected.
